市場回顧

於截至2016年9月30日止年度(「本年度」), 受全球經濟放緩、主要發達國家貨幣寬鬆政 策的相關潛在風險之憂慮以及史無前例的英 國脱歐表決帶來的衝擊,環球金融市場大幅 波動。因此,香港的投資氣氛普遍疲弱。然 而,於2016年第三季度,因美國維持貨幣 寬鬆的意向及投資者對即將推出深港通計劃

管理層討論與分析

of 2016, the Hong Kong stock market staged a strong rally, driven by the United State's intention to maintain accommodative monetary conditions and the growing expectations regarding the imminent launch of Shenzhen-Hong Kong Stock Connect scheme. Against a high comparison base, the average daily turnover in the Hong Kong securities market decreased by 36.3% to HK\$68.83 billion (2015: HK\$108.0 billion).

With prominent listings by several Chinese financial services institutions, Hong Kong is set to maintain its leadership in the world's IPO market in 2016. During the Year, there were 126 new listings on The Stock Exchange of Hong Kong Limited (the "Stock Exchange"), raising a total of HK\$237.8 billion (2015: HK\$257.5 billion).

Against a backdrop of global economic uncertainties, capital investment in Hong Kong and the Mainland China remained lacklustre. Domestic credit demand moderated as corporate customers became more conservative in borrowing amid subdued business sentiment. While commercial banks have remained cautious about lending, non-bank money lenders have achieved vitality among small and medium-sized enterprise horrowers

A. Environmental Protection

Environmental Policies and Performance

During the Year, the Group has continued to make its best endeavours to protect the environment from its business activities and workplace. The Group also educates its employees on their awareness of promoting a "green" environment. The Group seeks to identify and manage environmental impacts attributable to its operation, in order to minimise these impacts if possible. Various measures have been adopted to reduce energy and other resource use, minimise waste and increase recycling, and promote environmental protection in its supply chain and marketplace. These measures are discussed in the "Use of Resources" and "The Environment and Natural Resources" sections below.

Use of Resources

The Group aims to maximise energy conservation in its branches and offices by promoting efficient use of resources and adopting green technologies. For instance, the Group continues to upgrade equipment such as lighting and airconditioning systems in order to increase overall operating efficiency. In the head office, air-conditioning systems are equipped with smart sensors to automatically adjust the temperature and cooling speed, resulting in a comfortable working environment while saving energy. In Mongkok flagship branch, fluorescent tubes have been replaced with energy-efficient LED light strips in the LED advertising panel. In addition, LED advertising panels are switched off during non-business hours, to minimise light pollution and reduce energy consumption. To identify energy efficiency opportunities, the Group measures and records the energy consumption intensity from time to time. In July 2016, an energy audit service was conducted in the head office by HK Electric to identify energy saving opportunities for improving energy efficiency. The findings of the energy audit have delivered valuable insights about the energy-saving measures tailored to the Group.

The Environment and Natural Resources

Creating a paperless working environment not only reduces environmental damage but also fits commercial goals, as it can save physical space, facilitate information sharing via online networks, and reduce complicated documentation procedures. In recent years, the Group has implemented paperless processing in its internal communications, including for employee time sheets, payrolls and memorandum, etc. Moreover, duplex printing and copying has become the norm within the Group, greatly reducing paper consumption and saving costs. Usage data of office printing machines is regularly collected and assessed, to monitor the efficiency of a paperless environment.

During the Year, the Group has partnered with its office printer vendor, to introduce a "Follow You" print solution that helps the Group become more energy efficient through smarter printing. The print solution enables the Group to achieve environmental objectives by reducing unclaimed printing, as printing is released only upon presentation of a staff card from that particular staff who gives printing instruction.

資源利用

本集團藉著促進善用資源及採納綠色科 技,旨在使旗下分行及辦公室積極實踐 節約能源。例如,本集團不斷提升照明 及空調系統等設備,藉此提高整體經營 效率。於公司總部,空調系統配備智能 感應器以自動調節溫度及冷卻速度,務 求在節能的同時營造出舒適之工作環 境。而在香港旺角旗艦分行,LED廣告 牌內的光管已替換為節能LED燈條。此 外,LED廣告板在非辦公時間關掉,以 盡量減少光污染及降低能源消耗。為發 掘提升能源效益的方法,本集團不時量 度及記錄耗能情況。於2016年7月,港 燈在公司總部進行能源審核服務,以發 掘提升能源效益的節能方法。能源審核 的結果為定制本集團節能措施提供寶貴 意見。

環境及天然資源

營造一個無紙化的工作環境不僅減少對 環境造成破壞,亦可節省空間、促進透 過網絡信息共享及減省繁複文書程序從 而符合商業目標。本集團近年已於其內 部通訊(包括僱員工時表、工資單及備 忘錄等)實行無紙化。另外,雙面列印 及複製已成為本集團的慣常做法,大大 減少紙張消耗及節省成本。本集團定時 收集及評估辦公室打印機之使用數據, 藉此監控無紙化環境之成效。

於本年度,本集團與辦公列印供應商合 作,引入「Follow You |列印方案,诱 過智能列印有助本集團達致更佳能源效 益。由於列印時作出列印指示的指定員 工需要出示員工證方能進行打印,因此 可減少無人認領列印的情況,從而有助 本集團達到環保的目的。

環境、社會及管治報告

The Group aims to promote environmental awareness, not only within the organisation, but also through engaging customers, encouraging a co-operative approach to minimising its environmental impact. The formalities for opening a securities account involve a considerable amount of paperwork. In view of this, the account opening form has been modified to minimise paper usage. To encourage the migration of customers' account statements from a print format to electronic version, a surcharge is applied if clients opt to receive paper statements. As at 30 September 2016, approximately 78% of the Group's customers were receiving electronic statements. In addition, the Group distributes the latest promotion information and notices via email and SMS instead of printed mails.

The Company strongly recommends Shareholders to access its corporate communications, including financial reports, through the websites of the Stock Exchange and the Company instead of in printed form. By introducing electronic means of corporate communications to Shareholders, the quantity of printed materials has been considerably reduced. This paperless practice thus helps to protect the environment, as well as save costs for stationery, printing and administrative charges etc. During the Year, roughly 90% of individual Shareholders received financial reports and other documents of the Company via electronic means.

A cartoon character, "Sam", has been created during the Year, as the ambassador for promoting staff's environmental awareness. Sam has encouraged staff to take action to create a green workplace by featuring a set of eco-friendly tips on the staff screensaver:

- Keep air-conditioned room temperature at 25°C
- Shut off lighting when leaving a room for more than an hour
- Switch off computers after working hours
- Opt for duplex printing

本公司極力推薦股東利用聯交所及本公司網站獲取公司通訊(包括財務報告)而非收取印刷文件。通過向股東引入電版公司通訊,印刷量大幅減少。此無無化行動既可保護環境,亦可節約文儀用品、印刷及行政費用等。於本年度,約90%之個人股東以電子方式收取本公司財務報告及其他文件。

於本年度,卡通人物「森森」被創作為環保大使,以推廣員工的環保意識。森森透過員工電腦的螢幕保護程式發佈一系列環保提示,鼓勵員工為營造綠色的工作環境採取行動:

- 保持空調室溫為攝氏25度
- 離開房間超過一小時應關燈
- 下班後應關閉電腦
- 選擇雙面影印

Emolument Policy

The emoluments of the Executive Directors were decided by the Board as recommended by the Remuneration Committee having regard to a written remuneration policy (which ensures a clear link to business strategy and a close alignment with the Shareholders' interest and current best practice), the Group's operating results, individual performance and comparable market statistics. The INEDs are paid fees in line with market practice. No individual should determine his or her own remuneration.

INDEPENDENT AUDITOR'S REPORT

獨立核數師報告

Auditor's Responsibility (Continued)

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements give a true and fair view of the financial position of the Group as at 30 September 2016, and of its financial performance and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

2. Application of New and Revised Hong Kong Financial Reporting Standards ("HKFRSs") (Continued)

HKFRS 9 Financial instruments

HKFRS 9 issued in 2009 introduced new requirements for the classification and measurement of financial assets. HKFRS 9 was subsequently amended in 2010 to include requirements for the classification and measurement of financial liabilities and for derecognition, and further amended in 2013 to include the new requirements for general hedge accounting. Another revised version of HKFRS 9 was issued in 2014 mainly to include a) impairment requirements for financial assets and b) limited amendments to the classification and measurement requirements by introducing a "fair value through other comprehensive income" (FVTOCI) measurement category for certain simple debt instruments.

Key requirements of HKFRS 9 are described below:

All recognised financial assets that are within the scope of HKAS 39 "Financial instruments: Recognition and measurement" are subsequently measured at amortised cost or fair value. Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortised cost at the end of subsequent accounting periods. Debt instruments that are held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets, and that have contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, are measured at FVTOCI. All other debt investments and equity investments are measured at their fair value at the end of subsequent accounting periods. In addition, under HKFRS 9, entities may make an irrevocable election to present subsequent changes in the fair value of an equity investment (that is not held for trading) in other comprehensive income, with only dividend income generally recognised in profit or loss.

香港財務報告準則第9號金融工具

於2009年頒佈之香港財務報告準則第9號引入金融資產分類及計量之新規定。香港財務報告準則第9號其後於2010年作出修訂,納入分類及計量金融負債出資訊,並於2013年作出修訂,納入對沖通用會計法之時也,對於2014年頒佈之香港財務報告,與第9號另一經修訂版本主要加入A)的第一經修訂版本主要加入A)的第一經修訂版本主要加入A)的第一經修訂版過其他全面收益按公平值列賬」(「透過其他全面收益按公平值列賬」)計量類別,對分類及計量規定作出有限修訂。

香港財務報告準則第9號之主要規定載 述如下:

2. Application of New and Revised Hong Kong Financial Reporting Standards ("HKFRSs") (Continued)

HKFRS 9 Financial instruments (Continued)

- With regard to the measurement of financial liabilities designated as at fair value through profit or loss, HKFRS 9 requires that the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is presented in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss. Changes in fair value of financial liabilities attributable to changes in the financial liabilities' credit risk are not subsequently reclassified to profit or loss. Under HKAS 39, the entire amount of the change in the fair value of the financial liability designated as fair value through profit or loss was presented in profit or loss.
- In relation to the impairment of financial assets, HKFRS 9 requires an expected credit loss model, as opposed to an incurred credit loss model under HKAS 39. The expected credit loss model requires an entity to account for expected credit losses and changes in those expected credit losses at each reporting date to reflect changes in credit risk since initial recognition. In other words, it is no longer necessary for a credit event to have occurred before credit losses are recognised.
- The new general hedge accounting requirements retain the three types of hedge accounting mechanisms currently available in HKAS 39. Under HKFRS 9, greater flexibility has been introduced to the types of transactions eligible for hedge accounting, specifically broadening the types of instruments that qualify for hedging instruments and the types of risk components of non-financial items that are eligible for hedge accounting. In addition, the retrospective quantitative effectiveness test has been removed. Enhanced disclosure requirements about an entity's risk management activities have also been introduced.

The Directors anticipate that the application of HKFRS 9 in the future may have a certain impact on amounts reported and disclosures made in the Group's consolidated financial statements. However, it is not practicable to provide a reasonable estimate of the effect of HKFRS 9 until the Group performs a detailed review.

董事預期,日後應用香港財務報告準則第9號可能對本集團綜合財務報表內呈報之金額及作出之披露造成若干影響。然而,在本集團進行詳細檢討前,對香港財務報告準則第9號之影響作出合理估計並不切實可行。

HKFRS 15 Revenue from contracts with customers

HKFRS 15 was issued which establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. HKFRS 15 will supersede the current revenue recognition guidance including HKAS 18 "Revenue", HKAS 11 "Construction contracts" and the related Interpretations when it becomes effective.

The core principle of HKFRS 15 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the Standard introduces a 5-step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

Under HKFRS 15, an entity recognises revenue when (or as) a performance obligation is satisfied. Far more prescriptive guidance has been added in HKFRS 15 to deal with specific scenarios. Furthermore, extensive disclosures are required by HKFRS 15.

The Directors anticipate that the application of HKFRS 15 in the future may have an impact on the amounts reported and disclosures made in the Group's consolidated financial statements. However, it is not practicable to provide a reasonable estimate of the effect of HKFRS 15 until the Group performs a detailed review.

香港財務報告準則第15號客戶合約收入

香港財務報告準則第15號已頒佈並建立了一個單一的綜合模型,以令實體確認來自客戶合約之收入。當香港財務報告準則第15號生效時,將取代現時沿用的收入確認指引,包括香港會計準則第18號「收入」、香港會計準則第11號「建築合約」及相關詮釋。

香港財務報告準則第15號之核心原則乃一個實體應確認收入以體現向客戶轉讓承諾貨品或服務之金額,並反映實體預期交換該等貨品或服務而應得之代價。具體而言,該準則引入五步法以確認收入:

• 第1步:識別與一名客戶訂立之合約

• 第2步: 識別合約內之履約義務

• 第3步: 釐定交易價格

第4步:將交易價格分攤至合約內 之履約義務

• 第5步:當實體符合履約義務時確 認收入

根據香港財務報告準則第15號,當一個實體符合履約義務時確認收入。香港財務報告準則第15號已就特別情況之處理方法加入更明確的指引。此外,香港財務報告準則第15號亦要求較廣泛之披露。

董事預計日後應用香港財務報告準則第 15號可能對已於本集團綜合財務報表內 呈報之金額及作出之披露產生影響。然 而,於本集團完成詳細審閱前無法合理 估計香港財務報告準則第15號之影響。

2. Application of New and Revised Hong Kong Financial Reporting Standards ("HKFRSs") (Continued)

HKFRS 16 Leases

In May 2016, HKFRS 16 was issued which provides a comprehensive model for the identification of lease arrangements and their treatment in the financial statements for both lessees and lessors. HKFRS 16 applies a control model to the identification of leases, distinguishing between leases and service contracts on the basis of whether there is an identified asset controlled by the customer. Under HKFRS 16, significant changes to lessee accounting are introduced, with the distinction between operating and finance leases removed and assets and liabilities recognised in respect of all leases (subject to limited exceptions for short-term leases and leases of low value assets). In contrast, HKFRS 16 does not include significant changes to the requirements for accounting by lessors. HKFRS 16 will supersede HKAS 17 "Leases" and its related interpretations including HK(IFRIC) - INT 4 "Determining whether an Arrangement contains a Lease". HK(SIC) – INT 15 "Operating Leases-Incentives" and HK(SIC) - INT 27 "Evaluating the Substance of Transactions Involving the Legal Form of a Lease" when it becomes effective.

HKFRS 16 introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for the rights and obligations created by all leases with a term of more than 12 months, unless the underlying asset is of low value. A lessee is required to recognise a right-of-use asset representing its right to use the underlying leased asset and a lease liability representing its obligation to make lease payments. A lessee measures right-of-use assets similarly to other non-financial assets (such as property and equipment) and lease liabilities similarly to other financial liabilities. As a consequence, a lessee recognises depreciation of the right-of-use asset and interest on the lease liability, and also classifies cash repayments of the lease liability into a principal portion and an interest portion and presents them in the statement of cash flows applying HKAS 7 "Statement of Cash Flows". Assets and liabilities arising from a lease are initially measured on a present value basis. The measurement includes non-cancellable lease payments (including inflation-linked payments), and also includes payments to be made in optional periods if the lessee is reasonably certain to exercise an option to extend the lease, or not to exercise an option to terminate the lease.

香港財務報告準則第16號租賃

香港財務報告準則第16號於2016年5月 頒佈,為租賃安排之識別及其承租人及 出租人於財務報表內的處理提供全面的 模式。香港財務報告準則第16號運用控 制模式來識別租賃,並根據是否由客戶 控制特定資產來區分租賃合同與服務合 同。根據香港財務報告準則第16號,對 承租人會計帶來大量改動,經營與融資 租賃之間的區別會被撤除,並就所有租 賃確認資產及負債(短期租賃及低價值 資產的租賃有若干例外情況)。相對而 言,香港財務報告準則第16號並無大幅 更改出租人會計規定。香港財務報告準 則第16號生效時將取替香港會計準則第 17號「租賃」及其相關詮釋,包括香港 (國際財務報告詮釋委員會)- 詮釋第4 號「釐定安排是否包括租賃」、香港(常 設詮釋委員會)-詮釋第15號「經營租 賃-優惠」及香港(常設詮釋委員會)-詮釋第27號「評估牽涉租賃的法律形式 的交易的內容」。

香港財務報告準則第16號引入單一承租 人會計模式,要求承租人就12個月以 上的所有租賃所產生的權利及責任確認 資產及負債,除非相關資產的價值極低 則作另論。承租人須確認使用權資產, 即其使用相關租賃資產的權利,以及租 賃負債,即其作出租賃付款的責任。承 租人計量使用權資產的方式與其他非金 融資產(例如物業及設備)類似,而計量 租賃負債的方式與其他金融負債類似。 因此,承租人應確認使用權資產折舊及 租賃負債利息,並將租賃負債的現金還 款分類為本金部分及利息部分,按香港 會計準則第7號「現金流量報表」在現金 流量報表中呈列。租賃產生的資產及負 債初步按現值基準計量。計量包括不可 註銷租賃付款(包括與通脹掛鈎付款), 亦包括在承租人合理肯定會行使選擇權 延續租賃,或不行使選擇權而中止租賃 的情况下,將於選擇權期間內作出的付 款。

2. Application of New and Revised Hong Kong Financial Reporting Standards ("HKFRSs") (Continued)

HKFRS 16 Leases (Continued)

In addition, HKFRS 16 substantially carries forward the lessor accounting requirements in HKAS 17. Accordingly, a lessor continues to classify its leases as operating leases or finance leases, and to account for those two types of leases differently.

Furthermore, HKFRS 16 also requires both lessor and lessee to provide enhanced disclosures in their financial statements in order to gives a basis for users of financial statements to assess the effect that leases have on the financial position, financial performance and cash flows of the lessor and lessee.

The Directors anticipate that the application of HKFRS 16 in the future may have a certain impact on the amounts reported and disclosures made in the Group's consolidated financial statements. However, it is not practicable to provide a reasonable estimate of effect of HKFRS 16 until the Group performs a detailed review.

The Directors anticipate that the application of all other new and revised standards, amendments or interpretation will have no material impact on the consolidated financial statements.

3. Significant Accounting Policies

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules") and by the Hong Kong Companies Ordinance ("CO").

香港財務報告準則第16號租賃(續)

此外,香港財務報告準則第16號大部分 承傳香港會計準則第17號出租人會計規 定。因此,出租人繼續將其租賃分類為 經營租賃或融資租賃,及以不同方式將 該兩類租賃入賬。

另外,香港財務報告準則第16號亦要求 出租人與承租人於其財務報表內提供更 多披露,以為財務報表的使用者在評估 租賃對出租人及承租人的財務狀況、財 務表現及現金流量的影響時提供基礎。

董事預計日後應用香港財務報告準則第 16號可能對已於本集團綜合財務報表 內呈報之金額及作出之披露產生若干影 響。然而,於本集團完成詳細審閱前無 法合理估計香港財務報告準則第16號之 影響。

董事預期應用其他新訂及經修訂準則、修訂或詮釋對綜合財務報表將不會有重大影響。

3. 重大會計政策

綜合財務報表乃根據香港會計師公會頒佈之香港財務報告準則編製。此外,綜合財務報表載有香港聯合交易所有限公司證券上市規則(「上市規則」)及香港公司條例(「公司條例」)所規定之適用披露資料。

3. Significant Accounting Policies (Continued)

The provisions of the new Hong Kong Companies Ordinance (Cap. 622) regarding preparation of accounts and directors' reports and audits became effective for the Company for the financial year ended 30 September 2016. Further, the disclosure requirements set out in the Listing Rules regarding annual accounts have been amended with reference to the new CO and to streamline with HKFRSs. Accordingly the presentation and disclosure of information in the consolidated financial statements for the financial year ended 30 September 2016 have been changed to comply with these new requirements. Comparative information in respect of the financial year ended 30 September 2016 are presented or disclosed in the consolidated financial statements based on the new requirements. Information previously required to be disclosed under the predecessor CO or Listing Rules but not under the new CO or amended Listing Rules are not disclosed in these consolidated financial statements.

The consolidated financial statements have been prepared on the historical cost basis, as explained in the accounting policies set out below. Historical cost is generally based on the fair value of the consideration given in exchange for goods or services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2, leasing transactions that are within the scope of HKAS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 or value in use in HKAS 36.

3. 重大會計政策(續)

綜合財務報表按歷史成本基準編製(於下文所載之會計政策中解釋)。歷史成本一般以交易貨品或服務所付代價之公平值為基準。

3. Significant Accounting Policies (Continued)

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date:
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The principal accounting policies are set out below.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiaries). Control is achieved when the Company:

- has power over the investee:
- is exposed, or has rights, to variable returns from its involvement with the investee: and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group losses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated income statement from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each item of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the noncontrolling interests having a deficit balance.

3. 重大會計政策(續)

此外,就財務報告而言,公平值計量根 據公平值計量之輸入數據可觀察程度及 輸入數據對公平值計量之整體重要性分 類為第一級、第二級及第三級, 載述如

- 第一級輸入數據是實體於計量日期 可以取得之相同資產或負債於活躍 市場之報價(未經調整);
- 第二級輸入數據是就資產或負債百 接或間接地可觀察之輸入數據(第 一級內包括之報價除外);及
- 第三級輸入數據是資產或負債之不 可觀察輸入數據。

主要會計政策載列如下。

綜合基準

綜合財務報表包括本公司及本公司所控 制實體(其附屬公司)之財務報表。擁有 控制權指本公司:

- 有權控制被投資方;
- 承擔或享有來自被投資方可變回報 的風險或權利;及
- 有能力行使其權力影響其回報金 額。

倘事實及情況表明上列三項控制因素中 有一項或多項出現變動,則本集團會重 估是否依然對被投資方持有控制權。

附屬公司的綜合於本集團獲得對附屬公 司之控制權時開始,並於本集團失去對 附屬公司之控制權時終止。具體而言, 於年內收購或出售之附屬公司之收入及 開支計入本集團自獲得控制權之日直至 本集團不再控制附屬公司之日之綜合收 益表。

損益及各項其他全面收益項目歸屬於本 公司擁有人及非控股權益。附屬公司之 全面收益總額歸屬於本公司擁有人及非 控股權益,即使這將導致非控股權益出 現虧絀結餘。

3. Significant Accounting Policies (Continued)

Basis of consolidation (Continued)

Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by other members of the Group.

All intra-group transactions, balances, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Changes in the Group's ownership interests in existing subsidiaries

Changes in the Group's ownership interests in existing subsidiaries that do not result in the Group losing control over the subsidiary are accounted for as equity transactions. The carrying amounts of the Group's interests and the noncontrolling interests are adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

When the Group losses control of a subsidiary, a gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable HKFRSs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under HKAS 39, or, when applicable, the cost on initial recognition of an investment in an associate.

3. 重大會計政策(*續*)

綜合基準(續)

倘有需要,將對附屬公司之財務報表作 出調整,以使其會計政策與本集團其他 成員公司所用之會計政策一致。

與本集團成員公司間之交易有關之所有 集團內交易、結餘、收入、開支及現金 流量於綜合賬目時悉數對銷。

本集團於現有附屬公司擁有權權益之變動

當本集團失去一間附屬公司之控制權 時, 盈虧於損益內確認, 並按(i)已收代 價公平值及任何保留權益公平值總額與 (ii)附屬公司之資產(包括商譽)及負債以 及任何非控股權益之先前賬面值的差額 計算。所有先前於其他全面收益確認之 有關該附屬公司之款項,將按猶如本集 團已直接出售該附屬公司之相關資產或 負債入賬(即按適用香港財務報告準則 之規定/許可條文重新分類至損益或轉 撥至另一類權益)。於失去控制權當日 於前附屬公司保留之任何投資之公平值 將根據香港會計準則第39號,於其後入 賬時被列作初步確認之公平值,或(如 適用)於初步確認時於聯營公司之投資 成本。

3. Significant Accounting Policies (Continued) Interest in associates and joint venture

Associates are entities over which the Group has significant influence and that is neither a subsidiary nor an interest in a joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The results and assets and liabilities of associates and joint venture are incorporated in these consolidated financial statements using the equity method of accounting. The financial statements of associates and joint ventures used for equity accounting purposes are prepared using uniform accounting policies as those of the Group for like transactions and events in similar circumstances. Under the equity method, investment in an associate and joint venture are initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate or joint venture. When the Group's share of losses of associates or joint venture exceeds the Group's interest in that associate or joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate or joint venture), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of that associates or joint venture.

An investment in an associate or a joint venture is accounted for using the equity method from the date on which the investee becomes an associate or a joint venture. On acquisition of the investment in an associate or a joint venture, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

3. Significant Accounting Policies (Continued) Interest in associates and joint venture (Continued)

The requirements of HKAS 39 are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group's investment in an associate or a joint venture. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with HKAS 36 "Impairment of Assets" as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with HKAS 36 to the extent that the recoverable amount of the investment subsequently increases.

The Group discontinues the use of the equity method from the date when the investment ceases to be an associate or a joint venture, or when the investment (or a portion thereof) is classified as held for sale. When the Group retains an interest in the former associate or joint venture and the retained interest is a financial asset, the Group measures the retained interest at fair value at that date and the fair value is regarded as its fair value on initial recognition in accordance with HKAS 39. The difference between the carrying amount of the associate or joint venture at the date the equity method was discontinued, and the fair value of any retained interest and any proceeds from disposing of a part interest in the associate or joint venture is included in the determination of the gain or loss on disposal of the associate or joint venture. In addition, the Group accounts for all amounts previously recognised in other comprehensive income in relation to that associate or joint venture on the same basis as would be required if that associate or joint venture had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognised in other comprehensive income by that associate or joint venture would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) when the equity method is discontinued.

3. Significant Accounting Policies (Continued) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable arising from financial services and is recognised on the following basis:

- Commission income for broking business of securities, futures and option dealing is recorded as income when the trades are executed.
- Insurance brokerage commission is recognised when the services are rendered or on straight-line basis over the claw back period, as appropriate.
- Advisory, other corporate finance services fee income, asset and wealth management fee income are recognised when the services are rendered.
- Underwriting commission income, sub-underwriting income, placing commission income are recognised once the corresponding underlying exposure has ceased.
- Handling fee income is recognised when the relevant transactions have been arranged or the relevant services have been rendered.
- Interest income from a financial asset is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.
- Dividend income from investments is recognised when the Shareholders' rights to receive payment have been established.

Property and equipment

Property and equipment are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and accumulated impairment losses, if any.

Depreciation is recognised so as to write off the cost of items of property and equipment less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Property and equipment (Continued)

An item of property and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The Group as lessee

Operating lease payments are recognised as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recorded in the respective functional currency (i.e. the currency of the primary economic environment in which the entity operates) at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise.

Foreign currencies (Continued)

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group (i.e. Hong Kong dollars) using exchange rates prevailing at the end of each reporting period. Income and expenses items are translated at the average exchange rates for the year. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of translation reserve.

Equity-settled share-based payment transactions

Share options granted to directors and employees

For grants of share options that are conditional upon satisfying specified vesting conditions, the fair value of services received is determined by reference to the fair value of share options granted at the date of grant and is expensed on a straight-line basis over the vesting period, with a corresponding increase in equity (share options reserve).

At the end of the reporting period, the Group revises its estimates of the number of options that are expected to ultimately vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to share options reserve.

For share options that vest immediately at the date of grant, the fair value of the share options granted is expensed immediately to profit or loss.

When share options are exercised, the amount previously recognised in share options reserve will be transferred to share premium. When the share options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in share options reserve will be transferred to retained profits.

Retirement benefit costs

Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions.

3. Significant Accounting Policies (Continued) Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from "profit before tax" as reported in the consolidated statement of profit or loss and other comprehensive income because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax base used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries, associates and joint venture, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of the reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

3. Significant Accounting Policies (Continued)

Taxation (Continued)

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax is recognised in profit or loss, except when it relates to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

Intangible assets

Intangible assets acquired separately and with finite useful lives are carried at costs less accumulated amortisation and any accumulated impairment losses. Amortisation for intangible assets with finite useful lives is provided on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less any subsequent accumulated impairment losses (see the accounting policy in respect of impairment losses on tangible and intangible assets below).

Financial instruments

Financial assets and financial liabilities are recognised on the consolidated statement of financial position when a group entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

本期及遞延税項乃於損益內確認,惟倘若其與於其他全面收益內或直接於權益內確認之項目有關則除外,於此情況下,本期及遞延税項亦分別於其他全面收益或直接於權益內確認。

Financial assets

The Group's financial assets are classified into two categories, including loans and receivables and available-for-sale ("AFS") financial assets. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset, or, where appropriate, a shorter period to the net carrying amount on initial recognition.

Interest income is recognised on an effective interest basis for loans and receivables.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Subsequent to initial recognition, loans and receivables (including accounts receivable, loans and advances, other debtors and deposits, amount due from an associate, bank balances and cash and pledged bank deposits) are carried at amortised cost using the effective interest method, less any identified impairment losses (see accounting policy on impairment loss on financial assets below).

AFS financial assets

AFS financial assets are non-derivatives that are either designated or not classified as financial assets at fair value through profit or loss.

Dividends on AFS equity instruments are recognised in profit or loss when the Group's right to receive the dividends is established.

Financial assets (Continued)

AFS financial assets (Continued)

AFS equity investments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured and derivatives that are linked to and must be settled by delivery of such unquoted equity investments are measured at cost less any identified impairment losses at the end of the reporting period.

Impairment of financial assets

Financial assets are assessed for indicators of impairment at the end of the reporting period. Financial assets are considered to be impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the financial assets have been affected.

Objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- breach of contract, such as default or delinquency in interest and principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation.

For financial assets carried at amortised cost, the amount of the impairment loss recognised is the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the financial asset's original effective interest rate.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of accounts receivable and loans and advances, where the carrying amount is reduced through the use of an allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss. When the accounts receivable and loans and advances are considered uncollectible upon the bankruptcy of customers, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited to profit or loss.

3. Significant Accounting Policies (Continued)

Financial instruments (Continued)

Impairment of financial assets (Continued)

For impairment assessment, each receivable is reviewed individually at the end of each month. Specifically, in assessing impairment for each receivable, management estimates the present value of future cash flows which are expected to be received, taking into account the borrower's financial situation and the net realisable value of the underlying collateral or guarantees in favour of the Group. Any impairment allowance is measured as the difference between the loan's carrying amount and the present value of the estimated future cash flows discounted at the loan's original effective interest rate.

When an AFS financial asset is considered to be impaired, cumulative gains or losses previously recognised in other comprehensive income are reclassified to profit or loss in the period.

For financial assets measured at amortised cost, if, in a subsequent period, the amount of impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment losses was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

Financial liabilities and equity instruments

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Financial liabilities

Financial liabilities including accounts payable, other creditors, short-term bank borrowings, loans payable and bonds issued are subsequently measured at amortised cost, using the effective interest method.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the group after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Interest expense is recognised on an effective interest basis.

Derecognition

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group continues to recognise the asset to the extent of its continuing involvement and recognises an associated liability. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised directly in other comprehensive income and accumulated in equity is recognised in profit or loss.

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

實際利率法為計算某項金融負債之攤銷成本及按有關期間分配利息費用之方法。實際利率為按金融負債之預期年期或(如適用)較短期間,將估計未來現金付款(包括已付或已收且構成實際利率一部分之所有費用及支出、交易成本及其他溢價或折讓)准確貼現至初步確認時之賬面淨值之比率。

利息費用按實際利率基準予以確認。

撇除確認

於撇除整項金融資產時,資產賬面值與 已收及應收代價及已直接於其他全面收 益確認及於權益累計之累計損益之總和 間之差額乃於損益中確認。

當且僅當本集團的責任獲解除、取消或屆滿時,本集團撇除確認金融負債。撇除確認之金融負債之賬面值與已付及應付代價間之差額乃於損益中確認。

3. Significant Accounting Policies (Continued) Impairment losses on tangible and intangible assets

At the end of the reporting period, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised as income immediately.

4. Key Sources of Estimation Uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Estimated impairment of accounts receivable and loans and advances

When there is objective evidence of impairment loss, the Group estimates the future cash flows of assets for impairment testing purpose. The amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition). Where the actual future cash flows are less than expected, a material impairment loss may arise in future financial periods. As at 30 September 2016, the gross carrying amount of accounts receivable is HK\$4,688,699,000 (2015: HK\$3,232,370,000), the gross carrying amount of loans and advances is HK\$1,625,373,000 (2015: HK\$1,454,826,000), impairment allowance on accounts receivable of HK\$22,000 (2015: HK\$19,000) has been made and was subsequently written off in the current year (2015: HK\$nil) and impairment allowance on loans and advances of HK\$30,971,000 in aggregate were provided as at 30 September 2016 (2015: HK\$253,000).

3. 重大會計政策(續)

有形及無形資產之減值虧損

倘其後撥回減值虧損,則該項資產之賬面值乃增加至其經修訂之估計可收回金額,惟所增加之賬面值數額不得超過倘若於以往年度未有就該項資產確認減值虧損原應釐定之賬面值。減值虧損撥回 乃即時確認為收入。

4. 估計不明朗因素之主要來源

下列為於報告期末有關未來之關鍵假設,及估計不明朗因素之其他主要來源,該等不明朗因素有引致於下一個財政年度對資產及負債之賬面值作出重大調整之重大風險。

應收賬款及貸款及墊款之減值估計

倘若有減值虧損之客觀證據,則本集團 估計資產之未來現金流量以作減值測 試。減值虧損之數額按該項資產之賬面 值與按金融資產之原實際利率(即於初 步確認時計算之實際利率)貼現之估計 未來現金流量(不包括尚未產生之未來 信貸虧損)之現值間之差額予以計量。 倘若實際未來現金流量少於預期,則在 未來財政期間可能產生重大減值虧損。 於2016年9月30日,應收賬款之賬面 總值為4.688.699.000港元(2015年: 3,232,370,000港元)、貸款及墊款之賬 面總值為1,625,373,000港元(2015年: 1,454,826,000港元),以及於2016年 9月30日合共作出應收賬款之減值撥備 22,000港元(2015年:19,000港元), 隨後於本年度內撇銷該減值撥備(2015 年:零港元)及貸款及墊款之減值撥備 30,971,000港元(2015年:253,000港 元)。

5. Capital Risk Management

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to Shareholders through the optimisation of the debt and equity balance. The capital structure of the Group consists of debts, which include short-term bank borrowings, loans payable, bonds issued as disclosed in respective notes, and equity attributable to owners of the Company, comprising issued share capital and reserves as set out on the consolidated statement of financial position, consolidated statement of changes in equity and respective notes. The Group's overall strategy remains unchanged from the prior year.

The management reviews the capital structure by considering the cost of capital and the risks associated with the share capital. In view of this, the Group manages its overall capital structure through the drawdown and repayment of bank borrowings, payment of dividends and issue of share capital.

Several subsidiaries of the Group (the "Regulated Subsidiaries") are registered with Securities and Futures Commission ("SFC") for the business they operate in. The Regulated Subsidiaries are subject to liquid capital requirements under Securities and Futures (Financial Resources) Rules ("SF(FR)R") adopted by the SFC. The required information is filed with SFC on a monthly basis.

Another subsidiary of the Group is a member of the Professional Insurance Brokers Association Limited and is required to maintain a minimum net asset value of HK\$100,000 at all times.

Financial risk management objectives and policies (Continued)

Currency risk (Continued)

It is the Group's policy for each operating entity to operate in local currencies as far as possible to minimise currency risks. Most of the Group's principal businesses are conducted and recorded in Hong Kong dollar, the functional currency of respective group entities, except for certain receivables from and payable to foreign brokers and bank deposits which are denominated in United States dollar, Renminbi, Japanese Yen and Singapore dollar (see notes 23, 24 and 26 for details). The executive directors of the Company considered that the effect of currency risk is insignificant as the Group has minimal exposure in Renminbi, Japanese Yen and Singapore dollar and there is the linked exchange rate system of Hong Kong dollar against United States dollar. Accordingly, no sensitivity analysis in relation to foreign currency exposure has been carried out by the management.

Interest rate risk

The Group is exposed to cash flow interest rate risk in relation to variable-rate accounts receivable, bank balances, loans and advances, bank borrowings and accounts payable.

The Group's cash flow interest rate risk is mainly relating to the fluctuation of best lending rate arising from the Group's accounts receivable and loans and advances and market savings interest rate arising from the Group's bank balances and accounts payable. The Group's exposure to interest rates on financial assets and financial liabilities are detailed below.

Financial instruments bearing variable interest rates in nature:

貨幣風險(續)

本集團就各個經營實體採取之政策為盡 可能以當地貨幣經營,以將外幣風險最 小化。本集團之大多數主要業務以港元 (各自集團實體之功能貨幣)進行及記 錄,惟若干應收及應付境外經紀之若干 賬款及銀行存款以美元、人民幣、日圓 及新加坡元計值除外(詳情見附註23、 24及26)。本公司執行董事認為,由於 以人民幣、日圓及新加坡元進行之交易 較少以及港元與美元掛鈎之匯率制度, 本集團面對之外幣風險很小,因此,管 理層並無就外幣風險進行任何敏感度分 析。

利率風險

本集團面臨與浮動利率應收賬款、銀行 結餘、貸款及墊款、銀行借款及應付賬 款有關之現金流量利率風險。

本集團之現金流量利率風險主要有關本 集團之應收賬款及貸款及墊款所產生之 最優惠貸款利率及本集團銀行結餘及應 付賬款所產生之市場儲蓄利率波動。本 集團所面臨之金融資產及金融負債之利 率風險詳述如下。

Interest rate sensitivity

The sensitivity analysis below has been determined based on the exposure to interest rates at the end of the reporting period and it is assumed that the amount of the above assets and liabilities at the end of the reporting period was in existence for the whole year and all other variables were held constant throughout the respective year. A 50 basis point (2015: 50 basis point) change represents management's assessment of the reasonably possible change in interest rates in respect of variable rate accounts receivable, loans and advances, bank balances, accounts payable and short term bank borrowings.

利率敏感度

下文之敏感度分析乃根據於報告期末之 利率風險予以釐定,並假設於報告期 末上述資產及負債金額於全年一直存在 及所有其他變量於各自年度一直維持不 變。50個基點(2015年:50個基點)變動 指管理層就浮動利率之應收賬款、貸款 及墊款、銀行結餘、應付賬款及短期銀 行借款對利率合理可能變動之評估。

		201 Change in b 基點 +50 HK\$'000 千港元	asis points	201 Change in b 基點變 +50 HK\$'000 千港元	asis points
Increase (decrease) in profit after tax for the year	本年度除税後溢利 增加(減少)	13,168	(13,168)	6,823	(6,823)

In management's opinion, the sensitivity analysis is unrepresentative of the market interest rate risk as the year end exposure does not reflect the exposure during the year.

Credit risk

The Group's maximum exposure to credit risk in the event of the counterparties failure to perform their obligations as at 30 September 2016 in relation to each class of recognised financial assets is the carrying amount of those assets as stated in the consolidated statement of financial position. In order to minimise the credit risk, the management of the Group has a delegated team to compile the credit and risk management policies, to approve credit limits and to determine any debt recovery action on those delinquent receivables. In addition, the Group reviews the recoverable amount of each individual receivable at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the executive directors of the Company consider that the Group's credit risk is significantly reduced.

管理層認為,由於年末所面對之風險不 反映年內所面對之風險,故市場利率風 險之敏感度分析不具代表性。

Credit risk (Continued)

The Group's concentration of credit risk by geographical locations is mainly in Hong Kong. The Group has no significant concentration of credit risk by any single debtor as the exposure is spread over a number of individual and institutional customers, except for the loans and advances and accounts receivable as disclosed in notes 22 and 23.

Details of analysis of the credit risk exposure of loans and advances and accounts receivable are disclosed in notes 22 and 23.

Bank balances are placed in various authorised institutions and the executive directors of the Company consider the credit risk for such instruments is minimal.

Liquidity risk

Internally generated cash flow and bank borrowings are the sources of funds to finance the operations of the Group. The majority of the Group's banking facilities are subject to floating rate and are renewable annually. The Group's liquidity risk management includes making available standby banking facilities and diversifying the funding sources. The Group regularly reviews the major funding positions to ensure adequate financial resources are available to meet their respective financial obligations.

As at 30 September 2016, the Group has available unutilised banking facilities of approximately HK\$1,655 million (30 September 2015: HK\$1,250 million).

The amounts disclosed in the table below are the contractual undiscounted cash flows. The table includes both interest and principal cash flows.

Note: Bank borrowings with a repayment on demand clause are included in the 'repayable on demand or less than 3 months' time band in the maturity analysis. As at 30 September 2016, the aggregate undiscounted principal amounts of these bank borrowings amounted to HK\$550,000,000 (30 September 2015: HK\$480,000,000). Taking into account the Group's financial position, the directors do not believe that it is probable that the banks will exercise their discretionary rights to demand immediate repayment. The directors believe that such bank borrowings will be repaid in accordance with the scheduled repayment dates set out in the loan agreements. At that time, the aggregate principal and interest cash outflows will amount to HK\$550,241,000 (30 September 2015: HK\$480,805,000).

Financial assets and financial liabilities offsetting

The disclosures set out in the tables below include financial assets and financial liabilities that are subject to an enforceable master netting arrangement or similar agreement that covers similar financial instruments that are either:

- offset in the Group's consolidated statement of financial position; or
- not offset in the consolidated statement of financial position as the offsetting criteria are not met.

Under the agreement of continuous net settlement made between the Group and Hong Kong Securities Clearing Company Limited ("HKSCC") and brokers, the Group has a legally enforceable right to set off the money obligations receivable and payable with HKSCC and brokers on the same settlement date and the Group intends to settle on a net basis.

In addition, the Group has a legally enforceable right to set off the accounts receivable and payable with brokerage clients that are due to be settled on the same date and the Group intends to settle these balances on a net basis.

Except for balances which are due to be settled on the same date which are being offset, amounts due from/to HKSCC, brokers and brokerage clients that are not to be settled on the same date, financial collateral including cash and securities received by the Group, deposit placed with HKSCC and brokers do not meet the criteria for offsetting in the consolidated statement of financial position since the right of set-off of the recognised amounts is only enforceable following an event of default.

此外,本集團擁有合法可強制執行權利,以與經紀業務客戶抵銷於相同日期 須予以結算之應收及應付賬款,而本集 團有意按淨額基準結算此等結餘。

Note: To minimise the Group's exposure to credit risk, there is a credit risk control team responsible for the evaluation of the customers' credit ratings, financial background and repayment abilities. Management had set up the credit limits for each individual customer which are subject to regular review by the management. Any extension of credit beyond these approval limits has to be approved by relevant level of management on an individual basis according to the exceeded amount. The Group has a policy for reviewing impairment of accounts receivable without sufficient collateral and those with default or delinquency in interest or principal payment. The assessment is based on an evaluation of the collectability and ageing analysis of the accounts and on management's judgment including the current creditworthiness, collateral value and the past collection history of each customer.

In determining the recoverability of the accounts receivable, the Group considers any change in the credit quality of the accounts receivable from the date when credit was initially granted up to the reporting date. The credit risk is limited due to the customer base being large and unrelated.

32.Share Options (Continued)

Notes:

(a) The fair value of options granted were calculated using the Black-Scholes model with Binomial Tree method. The inputs into the models are as follows:

Share price at date of grant : HK\$0.335

Exercise price : HK\$0.334

Expected volatility : 54.36%

Expected life of years : 4.92 years

Risk free rate : 1.10%

Expected dividend yield : 2.65%

50% of the shares that are issued pursuant to the exercise of the share option, shall be subject to a lock-up period of 6 calendar months from the relevant exercise date and the remaining 50% shall be subject to a lock-up period of 12 calendar months from the relevant exercise date. During the lock-up period, no share issued upon exercise of the share option is allowed to be traded, transferred, pledged or charged.

- (b) The exercise price had been adjusted from HK\$0.334 to HK\$0.247 with the effect of the rights issue as disclosed in note 31.
- (c) The rights issue as disclosed in note 31 constitutes a reorganisation of capital structure pursuant to the Scheme and adjustment has to be made to the exercise prices and the number of shares subject to the Scheme
- (d) Subject to the fulfillment of the pre-determined vesting conditions, the share options were originally exercisable from the date immediately after the publication of the audited financial results of the Group for the year ended 30 September 2014 to 12 July 2018. In accordance with the pre-determined vesting conditions, the exercise period has been changed to commencing on the date immediately after the publication of the audited financial results of the Group for the year ended 30 September 2015 to 12 July 2018.
- (e) Achievement of target net profit for the financial year 2014, or achievement of cumulative target net profit for the financial years 2014 and 2015.
- (f) Achievement of target net profit for the financial year 2015, or achievement of cumulative target net profit for the financial years 2014 and 2015.
- (g) The options lapsed on 10 December 2015.

Expected volatility was estimated by the historical daily volatility of the share prices of the Company. The expected life used in the model has been adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions and behavioural considerations.

32. 購股權(續)

32.Share Options (Continued)

The Black-Scholes option pricing model has been used to estimate the fair value of the options. The variables and assumptions used in computing the fair value of the share options are based on the executive directors' best estimate. The value of an option varies with different variables of certain subjective assumptions.

No share-based payment expenses have been recognised in both current and prior year since the vesting conditions have not been fulfilled.

33. Retirement Benefits Scheme

The Group participates in both a defined contribution scheme which is registered under the Hong Kong Occupational Retirement Scheme Ordinance (the "ORSO Scheme") and a Mandatory Provident Fund Scheme (the "MPF Scheme") established under the Hong Kong Mandatory Provident Fund Ordinance in December 2000. The assets of the schemes are held separately from those of the Group, in funds under the control of independent trustees. Employees who were members of the ORSO Scheme prior to the establishment of the MPF Scheme were offered a choice of staying within the ORSO Scheme or switching to the MPF Scheme, whereas all new employees joining the Group on or after 1 December 2000 are required to join the MPF Scheme.

The ORSO Scheme is funded by monthly contributions from both employees and the Group at rates ranging from 5% to 7% of the employees' basic salary, depending on the length of service with the Group.

For members of the MPF Scheme, the Group contributes 5% of relevant payroll costs to the Scheme with maximum cap at HK\$1,500, which contribution is matched by the employee.

The retirement benefit costs charged to the profit or loss represent contributions payable to the funds by the Group at rates specified in the rules of the schemes. Where there are employees who leave the ORSO Scheme prior to vesting fully in the contributions, the contributions payable by the Group are reduced by the amount of forfeited contributions.

At 30 September 2015 and 2016, no forfeited contributions arose upon employees leaving the ORSO Scheme.

32.購股權(續)

柏力克-舒爾斯期權定價模式已被用於估計購股權之公平值。計算購股權公平 值所採用之變量及假設乃基於執行董事 之最佳估計。購股權之價值隨著若干主 觀假設之不同變化而變化。

由於歸屬條件尚未獲達成,故於當前及 過往年度並無確認任何以股份支付之款 項開支。

33. 退休福利計劃

本集團同時參與根據香港職業退休計劃 條例註冊之定額供款計劃(「職業退休計劃」)及於2000年12月根據香港強制性公 積金計劃條例設立之強制性公積金計劃公 (「強積金計劃」)。該等計劃之資產人 集團之資產分開,並以積產員之 集團之資產分開,於強積金計劃可 經費之基金形式持有。於強積量 對之 屬職業退休計劃或轉為 對之 屬參加職業退休計劃或轉為 對 續參加強積金計 計劃,惟於2000年12月1日 本集團之新入職僱員均須參加強積金計 劃。

職業退休計劃每月由僱員及本集團按僱員基本薪金5%至7%之比率根據僱員於本集團之服務時長供款。

就強積金計劃之成員而言,本集團按相關薪金成本之5%向該計劃供股,最高上限為1,500港元,供款與僱員一致。

於損益中扣除之退休福利成本乃本集團 按有關計劃規則指定之比率須向該等基 金支付之供款。倘若有僱員於獲悉數授 予供款前退出職業退休計劃,則本集團 須支付之供款乃減去被沒收供款額。
